

Panel discussion to open the photo exhibition "BORDERLINE Frontiers of Peace" at Vabamu

Press release

Tallinn, September 30th, 2020

The Embassy of the Federal Republic of Germany in Estonia in cooperation with Vabamu Museum are opening the photo exhibition "[BORDERLINE Frontiers of Peace](#)" with a panel discussion on October 1st, 2020 at 4 p.m. in Vabamu (Toompea 8, Tallinn).

The exhibition is dedicated to the beauty and peacefulness of open borders and will be on display at Vabamu until January 10th, 2021. The photographer Valerio Vincenzo has visited 20,000 kilometers of the border between European countries, capturing in numerous images the boundless freedom of the European Union. Two bathers crossing the border between Poland and Lithuania; a couple having a picnic on the border between Austria and Italy; a group of mountaineers between Germany and Austria or a boy who can jump from a landing stage into Switzerland and swim to Italy. Not more than small markings remind us that one country ends and another begins.

The panel discussion begins with a short introduction by the photographer, Valerio Vincenzo. Following this Piret Kuusik, Junior Researcher at the Estonian Foreign Policy Institute, Kaupo Kikkas, an internationally successful music and art photographer from Estonia, and Keiu Telve, migration researcher and Managing Director of Vabamu, will discuss various aspects of borders in the public debate in Europe, especially in the light of current developments. Hannes Rumm, journalist and former Head of the Representation of the European Commission, will moderate the discussion.

The panel will be held in English and it will be streamed on the [Vabamu Facebook page](#).
